### The Great American Blood Purifier. | Charleston Advertisements. | New York Advertisements. THE QUEEN'S DELIGHT!

The Queen's delicative and Blood Parifier, is the most perfect vegetable compound of alteratives, tonics, diureties and diaphoretics; making it the most effective invigorating, rejuvenating and blood-cleansing cordial known to the world.

In introducing this new and extraordinary medicine to the public, observation leads us to remark that too little attention is paid to the "life of all flesh," the blood. Many diseases, and, too, many complaints, which have their origin in a vitiated state of the blood, are treated only as symptoms and results; whereas, if the remedy had been applied to enrich the blood and render it pure, both cause and effect would have been removed. The Queen's belight is effered to the afflicted as a sure remedy for those diseases arising from an impure condition of the blood. It has a direct and specific action upon that fluid, and consequently renders the binod pure. It is said, on high anthority, that "man no sooner begins to live than he begins to die, and that the characteristics of the living organism are ceaseless change and ceaseless waste." It is obvious, therefore, horsels wharf, Charleston, S. C. consequently renders the blood pure. It is said, on high authority, that "man no sooner begins to live than he heighs to die, and that the characteristics of the living organism are ceaseless change and eagseless waste." It is obvious, therefore, the blood if pure, in supplying that unless the blood if pure, in supplying that unless the blood if pure, in supplying that unless the successful as Serofula, Rheumatism, Repate Discretes, see, life and health is only to be maintained by the circulation of pure or excess, and whose constitution is impaired by disease and is suffering from paired by disease and is suffering from paired by disease and is suffering from paired by disease and is suffering from Rheumatism, Liver Complaint, Consumption, Scrofula or King's Evil, Carbunders, Beils, Reling Humor of the Skin, Erystpels, Skin Diseases, Teiter, Ronghness of Bones, old Uleres, Synthes, Panis in the Back, General Debility, and for all complaints arising from deficiency and poverty or blood, to use the Queen's Delight.

Children whose fair and ruddy complex, have a pleasant and sure remedy in the Children whose fair and ruddy complex, have a pleasant and sure remedy in the Children whose fair and ruddy complex, have a pleasant and sure remedy in the Children whose fair and ruddy complex, have a pleasant and sure remedy in the Children whose fair and ruddy complex, have a pleasant and sure remedy in the Children whose fair and ruddy complex, have a pleasant and sure remedy in the Children whose fair and ruddy complex, have a pleasant and sure remedy in the Children whose fair and ruddy complex, have a pleasant and sure remedy in the Children whose fair and ruddy complex, have a pleasant and sure remedy in the Children whose fair and ruddy complex have been appointed that warms of the contract of the profession by the complex of the profession of the professi

which its use is followed by the most successful results."

Its properties as a remedy were first introduced to the notice of the profession by Dr. Thos. Young Simons, of South Carolina, as early as 1828, as a valuable alterative remedy in syphilitic affections, and others requiring use of mercury. Dr. Simons' statements have been endorsed and extended by Dr. A. Lopez, of Mobile, and Dr. H. R. Frost, of Charleston. From the reports in its favor, there seems no reason to doubt the efficacy of this medicine in Secondary Syphilis, Scrofula, Cutaneous Diseases, Chronic Hepatic Affections and other complaints benefited by alterative medicines.
